Dear Valued Customer:

The costs of key raw materials in the plastics industry are continuing their dramatic and unprecedented climb. Natural Gas, Methanol and Acetone pricing are far above historical highs, with Acetone setting new price records every Quarter. Acetone producers are preparing additional significant increase announcements for Q1 2005.

As a consequence of these record costs, and the additional raw material increase hitting at the beginning of January, it is necessary to increase the price of all Lucite® acrylic sheet products per the attached schedule effective with shipments on January 17, 2005.

Your account manager will be contacting you with regard to this adjustment.

Lucite International is devoted to providing the best value, quality, and innovation in acrylic sheet products. We appreciate your business and support during these challenging times, and look forward to working together for continued success.

Sincerely,
